

.Home Learning Menu Term 6 - Ingenious Inventions

Teachers provide a Home Learning Menu at the start of each new term as a part of the Termly Curriculum Overview. We ask that children select at least one activity from the menu and either share on seesaw or bring into class during the last week of the term to share with the class and to celebrate.

Task Type	Option 1	Option 2	Option 3	Option 4
Thinking as a Writer	Record a video talking about one of Brunel's inventions.	Explain in writing or using a recording how inventions have changed the way we live.	Describe a famous inventor.	Create a poster about your favourite invention.
Thinking as an Artist	Draw an invention and shade using only pencil.	Create a colour wheel of colours you would find in the garden.	Experiment with adding white and black to different colours.	Use colouring pencils and pencils to show the texture of wood and metal in your drawings.
Thinking as a Scientist	See how many different butterflies you can find and identify over the term.	Create a poster about herbivores.	Create a nature video on your favourite animal.	Explain why penguins and turtles are not amphibians.

This term we are learning about the value of **Aspiration** in collective Worship. We would love to see examples of how you have shown aspiration at home or within the community on seesaw!
