

Home Learning Menu Term 3
Extreme Weather

This term we are learning about the value of collaboration in collective worship. We would love to see examples of how you have shown collaboration at home or within the community on seesaw! For example, as part of a team or choir.

Teachers provide a Home learning Menu at the start of each new term as a part of the Termly Curriculum Overview. We ask that children select at least one activity from the menu and bring it into class or post it on Seesaw at the end of the term to share with the class and to celebrate during the last week of term.

Task Type	Option 1	Option 2	Option 3	Option 4
Thinking as a Writer	Make a list of different types of weather.	Write a thank you letter to the weather presenter for informing us of the weekly weather forecast.	Write you own Weather poem.	Write a news report on the impact of flooding.
Thinking as an Artist	Make a windmill.	Mix paints to create a tornado scene or make a collage to show a lightning storm.	Film yourself presenting the weather as a weather presenter.	Make a sculpture of a weather symbol.
Thinking as a Scientist	Create a poster on the importance of keeping clean	Create a video on different exercises to keep you healthy.	Make a list of things that make you healthy.	Explain the impact of exercise on your body.
