

## Home Learning Menu Term 6

### Ingenious Inventions

Teachers provide a Home learning Menu at the start of each new term as a part of the Termly Curriculum Overview. We ask that children select at least one activity from the menu and share it on Seesaw at the end of the term to then share with the class and to celebrate.

<i>Task Type</i>	<i>Option 1</i>	<i>Option 2</i>	<i>Option 3</i>	<i>Option 4</i>
<i>Thinking as a Writer</i>	Draw a toy of your choice and label it.	Write a set of instructions on how to make something, e.g. Lego, recipe etc.	Create a time line on inventions made by famous female inventors.	Create a leaflet of famous inventions.
<i>Thinking as an Artist</i>	Using old boxes, create your own inventing machine. Explain how it works.	Invent your own flavoured fruit drink using different fruits.	Draw a picture of a famous inventor.	Using materials like clay or Lego, make a sculpture of a famous inventor or invention.
<i>Thinking as a Scientist</i>	Draw a life cycle of an animal like a chick or a frog.	Plan or make (under adult supervision) a meal that is balanced and healthy.	Create your own food menu or shopping list that will provide people with a balanced diet.	Create a human growth time line to show the stages of growing, e.g. baby, toddler, child etc.
