

Hello all.

I hope you and your families are well and enjoying spending time together. I have been thinking about you all and missing you.

Well done for doing all your Doodling so far – other teachers have told me that you have obviously been working really hard. I'm very impressed with the effort you have been putting into your home learning.

I have been relaxing by painting stones with my children. We are going to decorate the garden with them - it has been great. I have made sure I have done my daily exercise by tuning into Joe Wicks each day and completing his daily work outs. It has certainly been a fun way for my family and I to start the day! I do like the squats and the reaching for the stars but I'm not so keen on the Spiderman exercise.

Here are some of the stones we have painted for our garden. Have you been doing anything creative?

Here is a Jigsaw activity for you to try...design a poster to tell others what makes a good friendship.

Start by thinking about your friendships and what makes them good friendships. Now make a list of those things. Think about the layout of your poster. It will need a big bold heading so people know what your poster is about. It needs writing for information but not too much detail. Try to make it colourful and eye-catching. Here are a few examples but I'm sure you have got lots of your own ideas.

I look forward to seeing your posters (or pictures of them) when school reopens.

Remember how we use Calm Me time in every Jigsaw lesson...maybe you could try using it before you start your home learning so your mind feels calm and ready to learn.

Take care and I'll be in touch again soon,

Mrs Hillier
