

Hello Year 6!

I hope you and your families are well and had a lovely Easter in the sunshine! As you know, I love my chocolate so I thoroughly enjoyed eating my chocolate Easter egg!

Over Easter, I have been exploring the area around where I live by going on runs and walks – it's amazing what you can discover! I have also been relaxing by doing some reading this week. I hope you are doing your reading everyday – I can't wait to see what new books you have read when we are back!

This week you will have been doing your Doodle Maths learning all about division so well done on using the bus stop method and practising your halving skills! You've also been doing some great Doodle English work – well done! Don't forget Purple Mash – I've seen some fantastic Computer Game design ideas! Have you been practising your time skills using some bus timetables?

Here's a photo of a river I found nearby. I had never been here before I started exploring on runs and walks!

Just like Miss Bowers, I have been exploring the local area over Easter. I've also been doing lots of reading and baking. I hope you are all keeping busy, active and happy.

Remember, although it's great to do as much home learning as you can, you don't have to complete it all - just do what is manageable and stay happy! Also, if you are stuck you can get in touch with the office and I will be able to help! We are working hard to get a new app for you called See Saw that should make it easier for us to keep in touch and for Mrs Bible and me to be able to help you. More information about this is coming soon!

A quick message for adults at home with you: I am aware that your child will be accessing a range of materials online to support their learning. To ensure that your child has the safest experience of being online, please can you check your firewall (privacy) settings at home are suitable for them. When I set homework such as research, I hope to point you in the direction of websites that should be safe to use but can you please monitor their safe surfing of the internet. 😊

Take care and I'll be in touch again soon,

Miss Bowers

A message from Mrs Terry...

Hello year 6! Long time no see , although I have been thinking about you all. I planted some seeds recently and when they all grew into seedlings they made me think of you. At first glance they all look similar but they all started to grow at different times and different speeds and have different features; so I decided to name each one after each one of you! Last night I transplanted them from their seed tray into their own individual pots. They're still not old enough to be outside all the time yet and definitely need to be kept inside overnight. As they grow and venture outside I'll keep you updated about their welfare. I'll be watering, tending, caring and watching them all, just as I'm rooting for each one of you. Have a safe and happy week, Mrs. Terry.

## Hello from Mrs Hillier

I hope you are well and have been enjoying some fun times in the sunshine over the Easter break.

Over Easter I have been baking with my children. We have made bread, biscuits, and even some doughnuts which were lovely dipped in melted chocolate – you know how much I love chocolate! We have been remembering to do our daily exercise with Joe Wicks. Have you been able to answer his questions about other places in the world? And did any of you dress up for Fancy Dress Friday? Look on our school Twitter account to see what I dressed up as!

Here's a picture of the French apple tart we made...delicious with vanilla ice cream

Here is a Jigsaw activity for you to try...design a hopes and dreams kite.

Start by thinking about your hopes and dreams for the future...for next month, for next year, for when you're older. Now make a list of those things. Draw a kite outline on a piece of paper, on cardboard or even on bits of left-over wallpaper. Draw a line on your kite from top to bottom and another line going from left to right, to divide it into 4 sections. In each section write one of your hopes or dreams and draw a picture to go with it. Add some colour to your kite to make it eye-catching. If you draw the outline on some cardboard, maybe a cereal box, you could cut your kite out, add a tail to it and hang it from your ceiling!

Remember

how we use Calm Me time in every Jigsaw lesson...maybe you could try using it before

you start your home learning, so your mind feels calm and ready to learn.

Take care and I'll be in touch again soon,

Mrs Hillier
